Centre County Conservation District

\* PAYMENT MUST ACCOMPANY ORDER

The District is not responsible for seedlings not picked up by 11:00 a.m. Saturday, April 25th. Planting survival rates of bare-root seedlings vary from site to site, from excellent to poor. We strive to provide the most viable seedlings. All efforts are made to prevent root stress. **The Conservation District and seedling suppliers cannot guarantee the success rate of seedlings. Our Seedlings will be healthy when picked up, but not guaranteed after the pick up date.**

The District will not ensure successful planting of bare-root seedlings, just as our supplier will not ensure seedling survival. The District is not responsible for mistakes made by the suppliers of our seedlings stock.

## Please keep for your records

Seedling pick up:  
**Friday 04/24/2015 from 3:00-5:00pm**  
**Saturday 04/25/2015 9:00-11:00am**  
Grange Fairgrounds, Centre Hall, PA

**Questions:** Call 814-355-6817 between 8:30 a.m. and 5:00 p.m. Monday-Friday and/or visit our website at

[www.centrecountypa.gov/conservation](http://www.centrecountypa.gov/conservation) or e-mail: [jmteeter@centrecountypa.gov](mailto:jmteeter@centrecountypa.gov).

Proceeds are used for the Conservation District's education efforts which include Envirothon events, scholarships, and other educational programs.

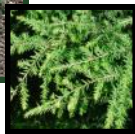

**Colorado Blue Spruce** (*Picea pungens glauca*) 3 yr., 10"-18". Blue-green color, prickly texture and strong aroma render them conveniently deer-resistant. Grows to 6 feet in 10-12 years.  
**10=Bundle**

**Scotch Pine** (*Pinus sylvestris*) 3 yr. 10"-20". Rigid bluish-green needles. Easily transplanted, vigorous growing, adjusts itself to dry soils. One of the fastest growing of the pine family. Excellent for windbreak.  
**10=Bundle**

**Canadian Hemlock**, (*Tsuga canadensis*) Native species. 4 yr. transplant (2-2), 12-18". Flat needles not jagged, 3/4inch in length. Best in cool, moist soils, pyramidal crown, grows to 6' in 10-12 years. Can be pruned as hedge. **PA State Tree!** 10=Bundle

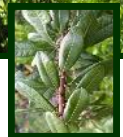

**Norway Spruce** (*Picea abies*) 2 yr. 5"-12" This graceful pyramidal has sharp,. Shiny, dark needles. Beautiful spreading branches with drooping twigs. An extremely hardy tree that is successful under moist soil conditions.  
**10=Bundle**

**Eastern White Pine**, (*Pinus strobus*) 2 yr., 5"-10". Very hardy pine that grows stately and gracefully tall. Needles are soft and bluish-green. With adequate moisture, growth can be 12" to 18" year. Ideal for specimen planting, shade, wind-breaks and Christmas trees. **10=Bundle**

**Northern Bayberry**, (*Myrica pensylvanica*) 6"-12". Excellent native shrub for ornamental or conservation use. Attractive, glossy leaves, being evergreen or semi-evergreen depending on climate. Produces fruit coated heavily with fragrant wax used for candles.  
**10=Bundle**

**American Redbud**, (*Cercis canadensis*) 4"-6" A small flat-topped tree, producing pink blooms on bare stems in early spring. Foliage is large and heart-shape, changing to yellow in the fall. Does well in a protected location. Does well in a variety of soils.  
**10=Bundle**

**American Elderberry**, (*Sambucus canadensis*) 6"-12". Large multi-spreading shrub with large, flat – topped white flowers in June-July followed by purple-black berries. Can be used for jellies, pies, and wine. Excellent for attracting birds.  
**10=Bundle**

PLANTS AVAILABLE  
SELECTED HEIGHT FROM OUR  
CULTIVATORS

**Golden Delicious Apples** - One of the most widely planted apple cultivators worldwide. Fruit is firm, medium to large with the classic Golden Delicious flavor. The tree is productive and easy to manage. Fruit thinning required to maintain annual bearing.

**Harrow Sweet Pear** - A late season pear. Good resistance to fire blight. Fruit size and appearance are similar to that of Bartlett; however, Harrow Sweet does develop an attractive blush. Trees should be thinned to maintain fruit size and avoid biennial bearing.

**Shenandoah Pear**— Fruit size is large with traditional sub-acid pear flavor. Blight resistance is good and similar to that of Seckel. Shenandoah stores very well for up to five months without breaking down.

**Contender Peach**— A high-quality, freestone variety ripening in the Loring season. Fruit is very firm, large, with excellent color. The trees are hardy and very productive.

**Montmorency (Tart) Cherry**—Recognized as the standard of the industry. It is considered the best tart cherry for the processing market. The fruit is bright red and medium in size with a clear, juicy flesh. The trees are self-fertile, winter hardy and very productive.

**Stanley Plum** - Fruit is large in size with dark blue skin. Flesh is greenish-yellow, juicy and fine-grained. The tree is early bearing and a good pollinizer for other European varieties.

**Kousa Dogwood**—(*Cornus kousa chinensis*), 6"-12". Flowering tree growing in popularity because of its uniform growth and pure white star-shaped flowers appearing weeks later than the Flowering Dogwood, and lasting longer.  
**10=Bundle**
